

Preparation Steps for Full Opening

This Coronavirus (COVID-19) Full Opening (September 2020) Risk Assessment sets out a risk control framework for you to adapt to your school/setting following an overarching principle to reduce the number of contacts between children and staff.

When completing your risk assessment, you should always use the risk assessment hierarchy of controls principal (below) to guide you.

It is important to remember that the smaller you can get the groups 'bubbles' whilst delivering a broad and balanced curriculum, the more effective your management of cross infection will be, and this will prove evident in the event of a confirmed COVID-19 case.

HIERARCHY OF CONTROLS

These decisions and measures you put in place will prepare the school/setting for the full opening and establish a platform for the school to continually operate in a safe way, so far as is reasonably practicable
