

The Tunny 'Transition' Newsletter

A Special Addition of the Tunny Newsletter for Year 6 families:

Tunny's at-home Learning tips

Learning Development - Independent work should be performed in 30-minute blocks, with short 5-minute break in between, to take advantage of average brain attention spans and focus.

Personal Development - Build an 'I can' mentality into the child as this aids resilience in all that they do and tell them the only time they can say 'I cannot' You say 'I cannot Yet'

Online Resource of the Week: The HTCS Website

Please visit the HTCS website and go to the 'Our People Section and then Year 6. there you will find a variety of support tools, from 4 transition videos to support your child's transition to FAQs, letters from the Head Teacher, other key documents and Uniform/PE Kit details and order information. Why not also use the HTCS booklets you have received to navigate the rest of the website to get to know High Tunstall!

Tunny's at-home enrichment activities of the week:

Why not keep your mind occupied, maintain your health, and learn about part of the ethos of High Tunstall:

You will be receiving a letter, guide and three books as a gift from HTCS. Two of the books are called 'Go Big' and 'You Are Awesome'. Please use the books, the guide and the website provided to work through the reading and activities that will develop your mindset prior to joining us in September. Our Tutor Times from September will also develop this further via team-building activities. Enjoy.

Key Transition Message of the Week:

In September, all Y7 students will receive lockers. They will be required to bring a padlock for this. Please use the one on show and its dimensions as a guide to what they will require.

However, think about the type of lock that suits you. If you have a good memory why not go for a combination lock, or if you are good at looking after your equipment why not go for the key lock.
