

High Tunstall College of Science Curriculum Intent

Subject: Biology Year: 7

Thread 2—Infection and response

	Biology Thread 2	Progress		
Topic	Key ideas	R	A	G
Infection and re-sponse	I can define the term pathogen			
	I can name the main types of pathogen			
	I can explain how pathogens are spread			
	I understand how we can stop the spread of pathogens			
	I can explain how the body defends against pathogens			

Lesson	Learning Focus	Assessment	Key Words
1	What are pathogens?	Completion of differentiated task looking at pathogens	Pathogen , bacteria, virus, fungi, protist
2	How are pathogens spread?	Completion of pathway tasks dependent upon confidence with the area	Transmission , water, air, direct contact
3	How can we stop the spread of pathogens?	Real life case study and conclusions made from this	Spread, prevent, transmission
4	How do we stop pathogens entering the body?	Identification of ways that we can prevent diseases from spreading and improvements made to work	Prevent , spread, infection
