Topic: Database

	Computer Science	Progress		
Topic	**Key ideas**	**R**	**A**	**G**
Database	I understand what a database is			
	I can explain how a database is structured			
	I know how to apply appropriate data types to all fields			
	I can add data to a database in the correct format			
	I can use my database to generate reports			
	I can use my database to carry out searches and sorts			

Lesson	Learning Focus	Assessment	Key Words
1	What is a database?	ILO: Database worksheets	Database, Storage
2 & 3	Structure a database in the correct format	End of topic assessment	Table, field, record
4	Add data to your database		Data types, number, text, date/time
5	Generate reports and carry out searches and sorts on your database		Query, reports
6	Assessment		Database, Storage, table, field, record, data types, number, text, date/time, query, reports
