High Tunstall College of Science Curriculum Intent

Unit 1: Construction Technology

Leaning Aim B— Explore how sub-structures are constructed

Topic	Design & Technology		Progress		
	Key ideas	R	A	G	
Iterative design	Preconstruction work: Desk-based preconstruction				
process	Preconstruction work: Site-based preconstruction				
	Sub-structure Groundworks: Hazards associated with groundworks				
	Sub-structure Groundworks: Control of Water and Earthwork support				
	Sub-structure Groundworks: Function and details of a foundation			T	
	Sub-structure Groundworks: Details of a ground floor				

Lesson	Learning Focus	Assessment	Key Words			
1	Introduction to Unit 1: Learning Aim B. Desk based preconstruction—Legal requirements, planning and programmes of work	Live marking/Formal examination	Preconstruction, legal require- ments, scheduling, Health & Safety Executive			
2	Site-based preconstruction—demolition & clearance, enabling work, site set-up	Live marking/Formal examination	Demolition, Recycling, Brown- field, Greenfield, Services			
3	Sub-structure groundworks—hazards, control of water and earthwork supports	Live marking/Formal examina- tion	Groundworks, Excavation, Collapse, Overburden, Proximity			
4	Sub-structure groundworks—functions of a foundation. Foundation detailing: Strip & deep strip; Raft; Short bored piles; Trench/Mass fill	Live marking/Formal examina- tion	Groundworks, Foundation, Strip, Deep Strip, Raft, Short bored piles, Trench/Mass fill			
5	Types of foundation: Strip and deep strip. Advantages, disadvantages, use with ground, sketching	Live marking/Formal examina- tion	Foundation, Strip foundation, Deep strip foundation			
6	Types of foundation: Raft. Advantages, disadvantages, use with ground, sketching	Live marking/Formal examina- tion	Foundation, Raft foundation			
7	Types of foundation: Short bored piles. Advantages, disadvantages, use with ground, sketching	Live marking/Formal examina- tion	Foundation, Short bored piles foundation			
8	Types of foundation: Trench/Mass fill. Advantages, disadvantages, use with ground, sketching	Live marking/Formal examination	Foundation, Trench/Mass fill foundation			
9	Understanding Ground floors: design and construction; solid & suspended floors; Damp proof coursing	Live marking/Formal examination	Groundworks, Ground floor, Damp Proof Course (DPC), Damp Proof Membrane (DPM)			
10	Formative assessment (Using past examination questions covering Unit1:Learning Aim B)	Live marking/Formative Assessment & Deep Marking grid/Formal examination	Formal, Examination, Objectives			
Assess-	Formal Examination:					
ment task	65 Marks					
(Formal	• 1 hour and 15 minutes					
Examina-	Objectives: Multiple choice, short answers, extended writing questions and sketching techniques					
tion)	First attempt in January; second attempt in May					
	Highest mark is allocated as Unit 1 grade (L1P/L2P/L2M/L2D)
