|  | Physics Thread 3-Electricity | Progress |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Topic | Key ideas | R | A | G |
| Electricity | I can state the relationship between current and charge |  |  |  |
|  | I can use and manipulate the equation that links potential difference, current and resistance |  |  |  |
|  | I can carry out practical work to investigate factor affecting resistance in a wire |  |  |  |
|  | I can identify charge in series and parallel circuits |  |  |  |
|  | I can state the difference between AC and DC |  |  |  |
|  | I can describe the National Grid |  |  |  |
|  | I can use the equations $\mathrm{P}=\mathrm{VI}$ and $\mathrm{P}=I^{2} \mathrm{R}$ to calculate power within electrical circuits |  |  |  |
|  | I understand how electrical charges can move between objects |  |  |  |

| Lesson | Learning Focus | Assessment | Key Words |
| :--- | :--- | :--- | :--- |
| $\mathbf{1}$ | State relationship between current and charge <br> using Q=It | Practice questions | Current, Charge |
| $\mathbf{2}$ | How are current, voltage and resistance linked? | Practice Questions | Current, potential differ- <br> ence, voltage |
| $\mathbf{3}$ | RPA—Resistance in a wire | Use E = VQ and V=IR to identify charge in series <br> and parallel circuits | Practice Questions |
| $\mathbf{4}$ | I can state the difference between AC and DC | Compare and contrast AC <br> and DC | Alternating Direct <br> sistance |
| $\mathbf{5}$ | Using the equations P=VI and P=I2 R to calculate <br> power within electrical circuits | Practice Questions | Power |
| $\mathbf{6 / 7}$ | How does the National Grid transfer electricity? | Extended writing |  |
| $\mathbf{8}$ | Students will discover how electrical charges can <br> move between objects | Homework | National grid, trans- <br> former |
| $\mathbf{9}$ | Pupils can talk about electrical fields and how <br> charges move through them | Pupils are able to describe <br> how a charge passes through <br> an electric field | Electrical Fields, Charge |
| $\mathbf{1 0}$ |  |  |  |
