Statement of intent

High Tunstall College of Science is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting staff, students and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the college in regard to all staff, students and visitors.

The college will take every reasonable precaution to ensure the safety and wellbeing of all staff, students and visitors.

This policy aims to:

- Ensure that the college has adequate, safe and effective first aid provision for every student, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor
- Ensure that staff and students are aware of the procedures in the event of any illness, accident or injury
- Ensure that medicines are only administered at the college when express permission has been granted for this
- Ensure that all medicines are appropriately stored
- Promote effective infection control.

Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the college site.

1. **[Updated]** Legal framework

This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Health and Safety (First Aid) Regulations 1981
- The Road Vehicles (Construction and Use) Regulations 1986
- The Management of Health and Safety at Work Regulations 1999
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- 'HSE (2013) Incident reporting in schools (accidents, diseases and dangerous occurrences) Guidance for employers'
- DfE (2022) 'First aid in schools, early years and further education'
- **[Updated]** DfE (2023) 'Automated external defibrillators (AEDs): a guide for maintained schools and academies; Updated 2025.
- **[Updated]** DfE (2026) Supporting children and young people with medical conditions and allergy

The policy is implemented in conjunction with the following college policies:

- Health and Safety Policy
- Administering Medication Policy
- **[New]** Allergen and Anaphylaxis Policy
- Behavioural Policy
- Child Protection and Safeguarding Policy
- Educational Visits, Outdoor Learning and Adventurous Activities Policy
- Infection Control Policy
- Lone Working Policy
- Record Management Policy
- Risk Assessment Policy
- Risk Assessment – First Aid
- Risk Assessment – Allergen & Anaphylaxis
- Supporting Students with Medical Conditions Policy
- Whole College Food Policy
- Animals in College Policy.

2. Roles and responsibilities

The governing body is responsible for:

- The overarching development and implementation of this policy and all corresponding procedures
- Ensuring that the relevant risk assessments, and assessments of the first aid needs of the college specifically, have been conducted

- Ensuring that there is a sufficient number of appointed first aiders & an 'appointed person' within the college based upon these assessments
- Ensuring that there are procedures and arrangements in place for first aid during off-site or out-of-hours activities, e.g. educational visits or parents' evenings
- Ensuring that insurance arrangements provide full cover for any potential claims arising from actions of staff acting within the scope of their employment
- Ensuring that appropriate and sufficient first aid training is provided for staff, and ensuring that processes are in place to validate that staff who have undertaken training have sufficient understanding, confidence and expertise in carrying out first aid duties
- Ensuring that adequate equipment and facilities are provided for the college site
- Ensuring that first aid provision for staff does not fall below the required standard and that provision for students and others complies with the relevant legislation and guidance.

The Headteacher is responsible for:

- The day-to-day development and implementation of this policy and its related procedures
- The development and implementation of this policy and its related procedures
- Ensuring that all staff and parents are made aware of the college's policy and arrangements regarding first aid
- Ensuring that all staff are aware of the locations of first aid equipment and how it can be accessed, particularly in the case of an emergency
- Ensuring that all students and staff are aware of the identities of the college first aiders and how to contact them if necessary.

Staff are responsible for:

- Ensuring that they have sufficient awareness of this policy and the outlined procedures, including making sure that they know who to contact in the event of any illness, accident or injury
- Endeavouring at all times to secure the welfare of the students at college
- Making students aware of the procedures to follow in the event of illness, accident or injury.

First aid staff are responsible for:

- Completing and renewing training as dictated by the Headteacher
- Ensuring that they are comfortable and confident in administering first aid
- Ensuring that they are fully aware of the content of this policy and any procedures for administering first aid, including emergency procedures
- Keeping up to date with government guidance relating to first aid in schools.

The appointed person is responsible for:

- Overseeing the college's first-aid arrangements
- Taking charge when someone is injured or becomes ill
- Looking after the first-aid equipment, e.g. restocking the first aid container
- Ensuring that an ambulance or other professional medical help is summoned when appropriate
- Calling the emergency services where necessary
- Maintaining injury and illness records as required
- Partaking in an appointed persons course, emergency first aid training, first aid at work, and refresher training where appropriate, to ensure they have knowledge of:
 - What to do in an emergency
 - How to assess and monitor a casualty
 - Cardiopulmonary resuscitation
 - First aid for the unconscious casualty
 - First aid for someone who is having a seizure
 - First aid for the wounded or bleeding
 - Paediatric first aid.
- Maintaining injury and illness records as required
- Arranging first aid courses for staff as required.

Administration Medically Trained Staff

- Administering medication to students as prescribed
- Checking medication held in college annually for expiry dates and dispose of accordingly
- Knowing what to do and responding accordingly when they become aware that a student with a medical condition needs help.

3. **[Updated]** First aid provision

The college will routinely re-evaluate its first aid arrangements through a risk assessment, at least annually, to ensure that these arrangements continue to be appropriate for hazards and take account of:

- Hazards and risks on the college premises
- The size of the college
- the needs of any vulnerable individuals onsite
- The nature and distribution of students and staff throughout the college.

The college will have suitably stocked first aid boxes in line with the assessment of needs. Where there is no special risk identified, a minimum provision of first aid items will be as follows:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings, of assorted sizes
- 2 sterile eye pads
- 2 individually wrapped triangular bandages, preferably sterile
- 6 safety pins
- 6 medium-sized (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings
- 2 large-sized (approximately 18cm x 18cm) individually wrapped sterile unmedicated wound dressings
- 3 pair of disposable gloves

All first aid containers will be identified by a white cross on a green background.

The appointed person will routinely examine the contents of first aid boxes, including any mobile first aid boxes for offsite use – these will be frequently checked and restocked as soon as possible after use. Items will be safely discarded after the expiry date has passed.

[New] Information for staff

The college will inform staff, students, contractors and visitors to the college, as appropriate, of the first aid arrangements, including the following:

- The contents and key principles of this policy
- The location of equipment and facilities
- The identities and roles of first aiders or the appointed person.
- How to contact a first aider or appointed person urgently should the need arise.
- The procedures for monitoring and reviewing the college's first aid needs.

[Updated] First aid box locations

[Updated] A total of twenty-four (24) First aid boxes are in the following areas, and these qualified first aiders are detailed on School Synergy application under Channel:

Location	Responsible Staff Member
Main Reception (Ground Floor)	Lily Hannon
PE Staffroom (Ground Floor)	Lily Hannon
Creativity Work room (Ground Floor)	Lily Hannon
ARC (Ground Floor)	Rachel Gray
Kitchen (Ground Floor)	Suzanne Johnston
Tech Prep Room (Ground Floor)	Joshua Pell
Independent Learning Hub (First Floor)	Jan Burton
Main Staffroom (First Floor)	Lily Hannon
Maths Staffroom (First Floor)	Lily Hannon
Communications Staffroom (First Floor)	Lily Hannon
Prep Room (Second Floor)	Julie Straughan
Discovery Staffroom (Second Floor)	Gemma McMahon
MFL/ENT (Workroom Second Floor)	Louise Tempest
Performance Studio (North Build)	Gemma Storey
World Affairs Staffroom (North Build)	Lily Hannon
Hydro Pool (North Build)	Rachel Forcer
Swimming Pool	Michelle Dixon
Shine Centre	Tracey Dodds
Rise	Carolyn Scrafton
Create (ORCEL Centre)	Tracey Dodds
Tunstall Active	Alan Tebbitt
Reach	Lisa Maddison
College Minibus	Site Staff
LA in Mobiles behind Tunstall Active	Staff

Staff Intranet – Emergency Procedures and Health & Safety – First Aid so staff know who they must contact and where they can retrieve a first aid kit at all times.

4. [Updated] First aiders and appointed persons

The main duties of first aiders will be to administer immediate first aid to students, staff or visitors, and to ensure that an ambulance or other professional medical help is called when necessary.

The College will ensure that all first aiders hold a valid certificate of competence, issued by an HSE-approved organisation and that refresher training and retesting of competence is arranged for first aiders within the College before certificates expire.

The College will ensure that first aid training courses include resuscitation procedures for children.

First aiders will ensure that their first aid certificates are kept up-to-date.

Staff detailed in section 3 will be responsible for ensuring all first aid kits are properly stocked and maintained in their area. The first aid appointed person will be responsible for maintaining supplies.

The college will ensure that there is always a sufficient number of first-aid personnel available on site at all times to provide adequate cover to all areas of the college.

All staff members will be made aware that agreeing to become a first aider for the college is strictly on a voluntary basis and that they should never feel pressured to take on this role.

When selecting first aiders, the college will follow the criteria laid out in government guidance, considering the individual's:

- Reliability and communication skills.
- Aptitude and ability to absorb new knowledge and learn new skills.
- Ability to cope with stressful and physically demanding emergency procedures.
- Normal duties – a first aider must be able to leave to go immediately to an emergency.

[Updated] CURRENT FIRST AID APPOINTED PERSON(s) as of 13/05/2025

Williamson	Laura	Sports Science	Emergency First Aid at Work	13.11.2025	13.11.2028

5. Automated external defibrillators (AEDs)

The college has three (3) AEDs located on the Elwick Road campus; one (1) is located on the external wall of Tunstall Active, the second (2) is on the external wall near the community entrance of the South building and the third (3) is located in the main admin office.

The CREATE (ORCEL Centre) utilises the AED in the adjoining Wynyard Road Medical Centre and located externally nearby as a lamppost mounted AED.

Where the use of the AED is required, individuals will follow the step-by-step instructions displayed on the device.

A general awareness briefing session, to promote the use of AEDs, will be provided to staff on an annual basis.

Use of the AED will be promoted to students during PSHE lessons.

6. Accommodation

The college will have an area dedicated to providing first aid support which will be suitable to use as and when it is needed.

The first aid area will be used to enable to the medical examination and treatment of students and for short-term care of sick or injured students.

For the Elwick Road campus this is located next to the administration office with the first aid area is situated near a wash basin and toilet.

The CREATE (ORCEL Centre) has a dedicated first aid / treatment room.

The first aid area will not be used for teaching purposes.

7. Emergency procedures

If an incident, illness or injury occurs, the member of staff in charge will assess the situation and decide on the appropriate course of action, which may involve calling for an ambulance immediately or calling for a first aider.

If called, a first aider will assess the situation and take charge of first aider administration.

If the first aider does not consider that they can adequately deal with the presenting condition by the administration of first aid, then they will arrange for the injured person to access appropriate medical treatment without delay.

Where an initial assessment by the first aider indicated a moderate to serious injury has been sustained, or the individual(s) has become seriously unwell, a responding staff member will call 999 immediately.

Where necessary, a trained staff member will administer emergency help and first aid to all injured persons. The purpose of this is to keep the victim(s) alive and, if possible, comfortable, before professional medical help arrives. In some situations, immediate action can prevent the accident from becoming increasingly serious, or from involving more victims.

Where the seriously injured or unwell individual(s) is a student, the following process will be followed:

- A responding staff member calls 999 immediately and follows the instructions of the operator – this may include the administering of emergency first aid
- Where an ambulance is required, a staff member accompanies the student in the ambulance if the parents/carers does not arrive in time for the ambulance leaving site. A staff member calls the student's parent as soon as possible to inform them of the course of action taken. The staff member remains with the student at the hospital until a parent arrives
- Where an ambulance is not required, but medical attention is needed, staff would request that the parent/carers collect the student and takes them to a hospital or doctor. If the medical attention is required urgently but the parent/carers is unavailable the student would be taken in a staff car, accompanied by at least **two** (2) staff members – one of whom to drive the car, and one of whom, a first aider, to sit with the student in the back seat and attend to their medical needs. The student's parent would be contacted as soon as possible to inform them that this course of action has been taken, and at least one of the staff members remains with the student at the hospital or doctor's office until a parent arrives.

The college will ensure that no further injury can result from any incidents that occur, either by making the scene of the incident safe, or (if they are fit to be moved) by removing injured persons from the scene.

Responding staff members will see to any students who may have witnessed the incident or its aftermath and who may be worried or traumatised, despite not being directly involved. These students will be escorted from the scene of the incident and comforted. Younger or more vulnerable students may need parental support to be called immediately.

Once the above action has been taken, details of the incident will be reported promptly to:

- The Headteacher
- The parent/carers of the victim(s).

The college is aware that responding to an incident can be stressful for the first aider, and that following an incident, the first aider may require support. This may take the form of a debrief from any ambulance crew on scene, an appointment with their GP, or mental health support from external helplines and websites located at the bottom of the government page '[Promoting and supporting mental health and wellbeing in schools and colleges](#)'.

8. Reporting accidents and record keeping

The reporting of accidents or incidents will be performed in accordance with the (RIDDOR) requirements as per the HSE Incident reporting in schools (accidents, diseases and dangerous occurrences) Guidance for employers Education information Sheet No. 1 (Revision 3).

The Headteacher will ensure that any injury or accident that must be reported to the HSE or LA under RIDDOR obligations is reported in a timely and detailed manner.

The college uses an outsourced specialist reporting service: Be Safe – provided by North Yorkshire County Council.

In the event of incident or injury to a student, a parent will be informed as soon as practicable.

Parents will be informed of any injury to the head, whether minor or major, and be given guidance on the action to take if symptoms develop.

In the event of a serious injury or an incident requiring emergency medical treatment, the first aider will telephone the student's parents as soon as possible.

A list of emergency contacts will be kept on the college MIS: Schools Synergy / SIMS

The appointed person will ensure that records are kept of any injuries, accidents or illnesses, as well as any first aid treatment that is given – this will include:

- The date, time and place of the incident
- The name and class of the injured or ill person
- Details of the injury or illness and what first aid was given
- What happened to the person immediately afterwards, e.g. whether they were sent home or went back to class
- Name and signature of the first aider or person dealing with the incident.

All records will be filed and stored in line with the Record Management Policy.

9. Offsite visits and events

Before undertaking any offsite visits or events, the staff member organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved.

The college will take a first aid kit on all offsite visits which contains a minimum:

- A leaflet giving general advice on first aid
- 6 individually wrapped sterile adhesive dressings
- 1 large sterile unmedicated dressing
- 2 triangular bandages individually wrapped and preferably sterile
- 2 safety pins
- Individually wrapped moist cleansing wipes
- 2 pairs of disposable gloves.

Additionally, the college will ensure that all minibuses have a first aid box readily available and in good condition which contains:

- 10 antiseptic wipes, foil packed
- 1 conforming disposable bandage that is not less than 7.5cm wide
- 2 triangular bandages
- 1 packet of 24 assorted adhesive dressings
- 3 large sterile unmedicated ambulance dressings that are not less than 15x20cm
- 2 sterile eye pads, with attachments
- 12 assorted safety pins
- 1 pair of non-rusted blunt-ended scissors.

For more information about the college's educational visit requirements, please see the Educational Visits, Outdoor Learning and Adventurous Activities Policy.

10. **[Updated]** Medicines

[New] Administration

The college will ensure that staff are aware of government guidance which stipulates that the administration of first aid at work does not include the giving of tablets and medicines, whether prescribed or not. The only exception is where aspirin may be administered as first aid to a casualty aged 16 or over who is suspected of having a heart attack. Aspirin will never be given to a child under 16 unless it has been prescribed by a doctor.

The provisions and requirements for the administration of medicines will be outlined in the following college policies and documents:

- Administering Medication Policy
- Administering Medication Risk Assessment
- Allergen and Anaphylaxis Policy
- Allergen and Anaphylaxis Risk Assessment
- Supporting Students at College with Medical Conditions.

In circumstances where students may need to have access to life saving prescription drugs in an emergency, the details will be recorded in the student's individual healthcare plan and identified staff members will be aware of what to do.

Students will have any medication stored and, where appropriate administered, in accordance with their EHC plans and the college's Administering Medication Policy.

11. Illnesses and Allergies

When a student becomes ill during the college day, the parents will be contacted and asked to pick their child up as soon as possible. A quiet area will be set aside for withdrawal and for students to rest while they wait for their parents to pick them up.

Students will be monitored during this time.

The college will manage any emergencies relating to illnesses and allergies in accordance with the Emergency Procedures section of this policy.

12. Consent

Parents will be asked to complete and sign an Applica+ data entry form when their child is admitted to the college, which includes emergency numbers, alongside details of allergies and chronic conditions.

Staff do not act 'in loco parentis' in making medical decisions as this has no basis in law. Staff will always aim to act and respond to accidents and illnesses based on what is reasonable under the circumstances and will always act in good faith while having the best interests of the student in mind – guidelines will be issued to staff in this regard.

13. [Updated] Monitoring and review

This policy will be reviewed annually by the Headteacher, and any changes communicated to all members of staff.

Staff will be required to familiarise themselves with this policy as part of their induction programme. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel. The next scheduled review date for this policy is May 2027.
